

16 Mar 56  
H.R. 9911  
S. 3477

Acting Director of Logistics

It appears that this Proposed Bill would be beneficial to Agency employees in that it provides for the procurement by the Government of insurance against risk to civilian personnel of liability for personal injury or death, or for property damage, arising from the operation of motor vehicles in the performance of official Government duties. It is noted, however, that the Proposed Bill provides, with the exception of the Postmaster General, for the procurement of such insurance for all Government Agencies by the Administrator of General Services. In the event this bill is enacted into law, the possibility exists that security may be violated in obtaining such insurance through the General Services Administration. In the event it is determined that this Agency cannot securely obtain such insurance through the General Services Administration, it is recommended that the bill be so amended as to provide for procurement of this insurance by the Director of Central Intelligence.
